

AI-Powered Hair Regeneration Technology

Intelligent Exosomes. Healthier Scalp. Stronger Hair.

ExoHair combines AI-driven exosome technology with Herbal Extracellular Vesicles (Herbal EVs) to create a multi-source hair care solution. Designed to support scalp wellness and hair follicle vitality, it delivers consistent quality and performance for professional scalp care applications.

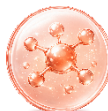

Exosomes

Supports cellular communication for healthier hair follicles

Herbal EV

Helps balance scalp conditions and support long-term scalp wellness

Copper Tripeptide

Supports scalp vitality and strengthens hair

Patented Follicle Boost

Nourishes hair follicles to support healthier-looking hair

Comprehensive Protection with Dual-Exosome Innovation

- ✓ Boost Self-confidence
- ✓ Increase Follicle Density
- ✓ Nourish Hair Follicles
- ✓ Maintain Scalp Balance
- ✓ Supports Hair Strength

Based on data provided by BIONET Corp.

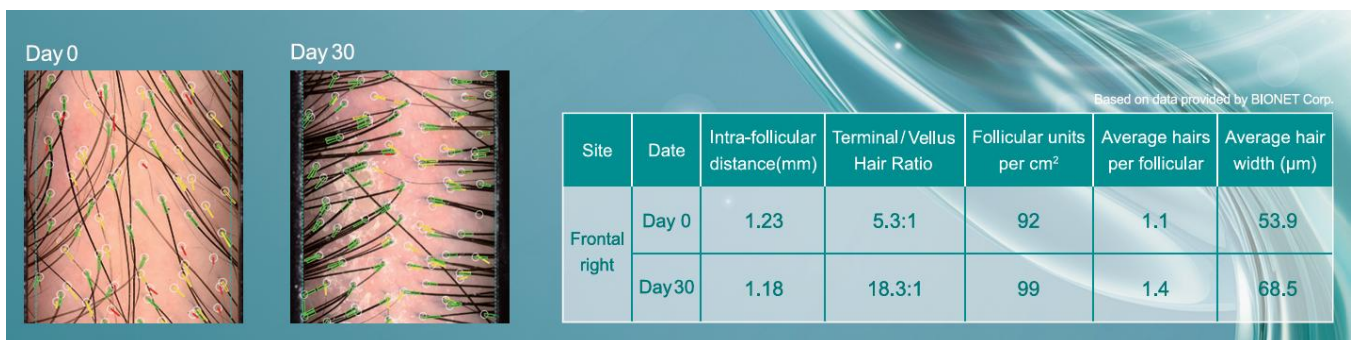

Hair Count ↑ 42%

Hair Density ↑ 63%

Hair Thickness ↑ 34%

Herbal Extracellular Vesicles contain a variety of bioactive components, including signaling molecules, DNA, proteins, RNA, lipids, and other biomolecules. They participate in intercellular communication while supporting anti-inflammatory, antibacterial, antioxidant, soothing, and moisturizing properties, making them valuable for a wide range of scalp care applications.

Proven Results for Fuller, Denser-Looking Hair

Regulate. Strengthen. Rebuild.

92%

Satisfaction

Users reported extremely high satisfaction with overall results.

86%

Volumizing

Users experienced a visible increase in hair fullness.

2-month

Transformation

Noticeably thicker, fuller and stronger-looking hair.

Features

Exosome Concentration	Exosomes > 10 billion + Herbal EVs > 300 million/ vial
Specification	Lyophilized powder 150 mg
Storage	Room temperature
Usage Instructions	Mix with normal saline (3-6ml) or essence: Clinical treatment procedures or topical application
Bioactive Molecule Verification	✓Total miRNA ✓Total Protein ✓Growth Factors
Functional Validation	Verified
Certificate of Analysis	Available
NPRA Cosmetic Notification (NOT)	Registered

Every production batch is rigorously tested for quality, safety, bioactive content, and functionality before release.
